---------------------------	-------------	-----------------------	-------------	-------------

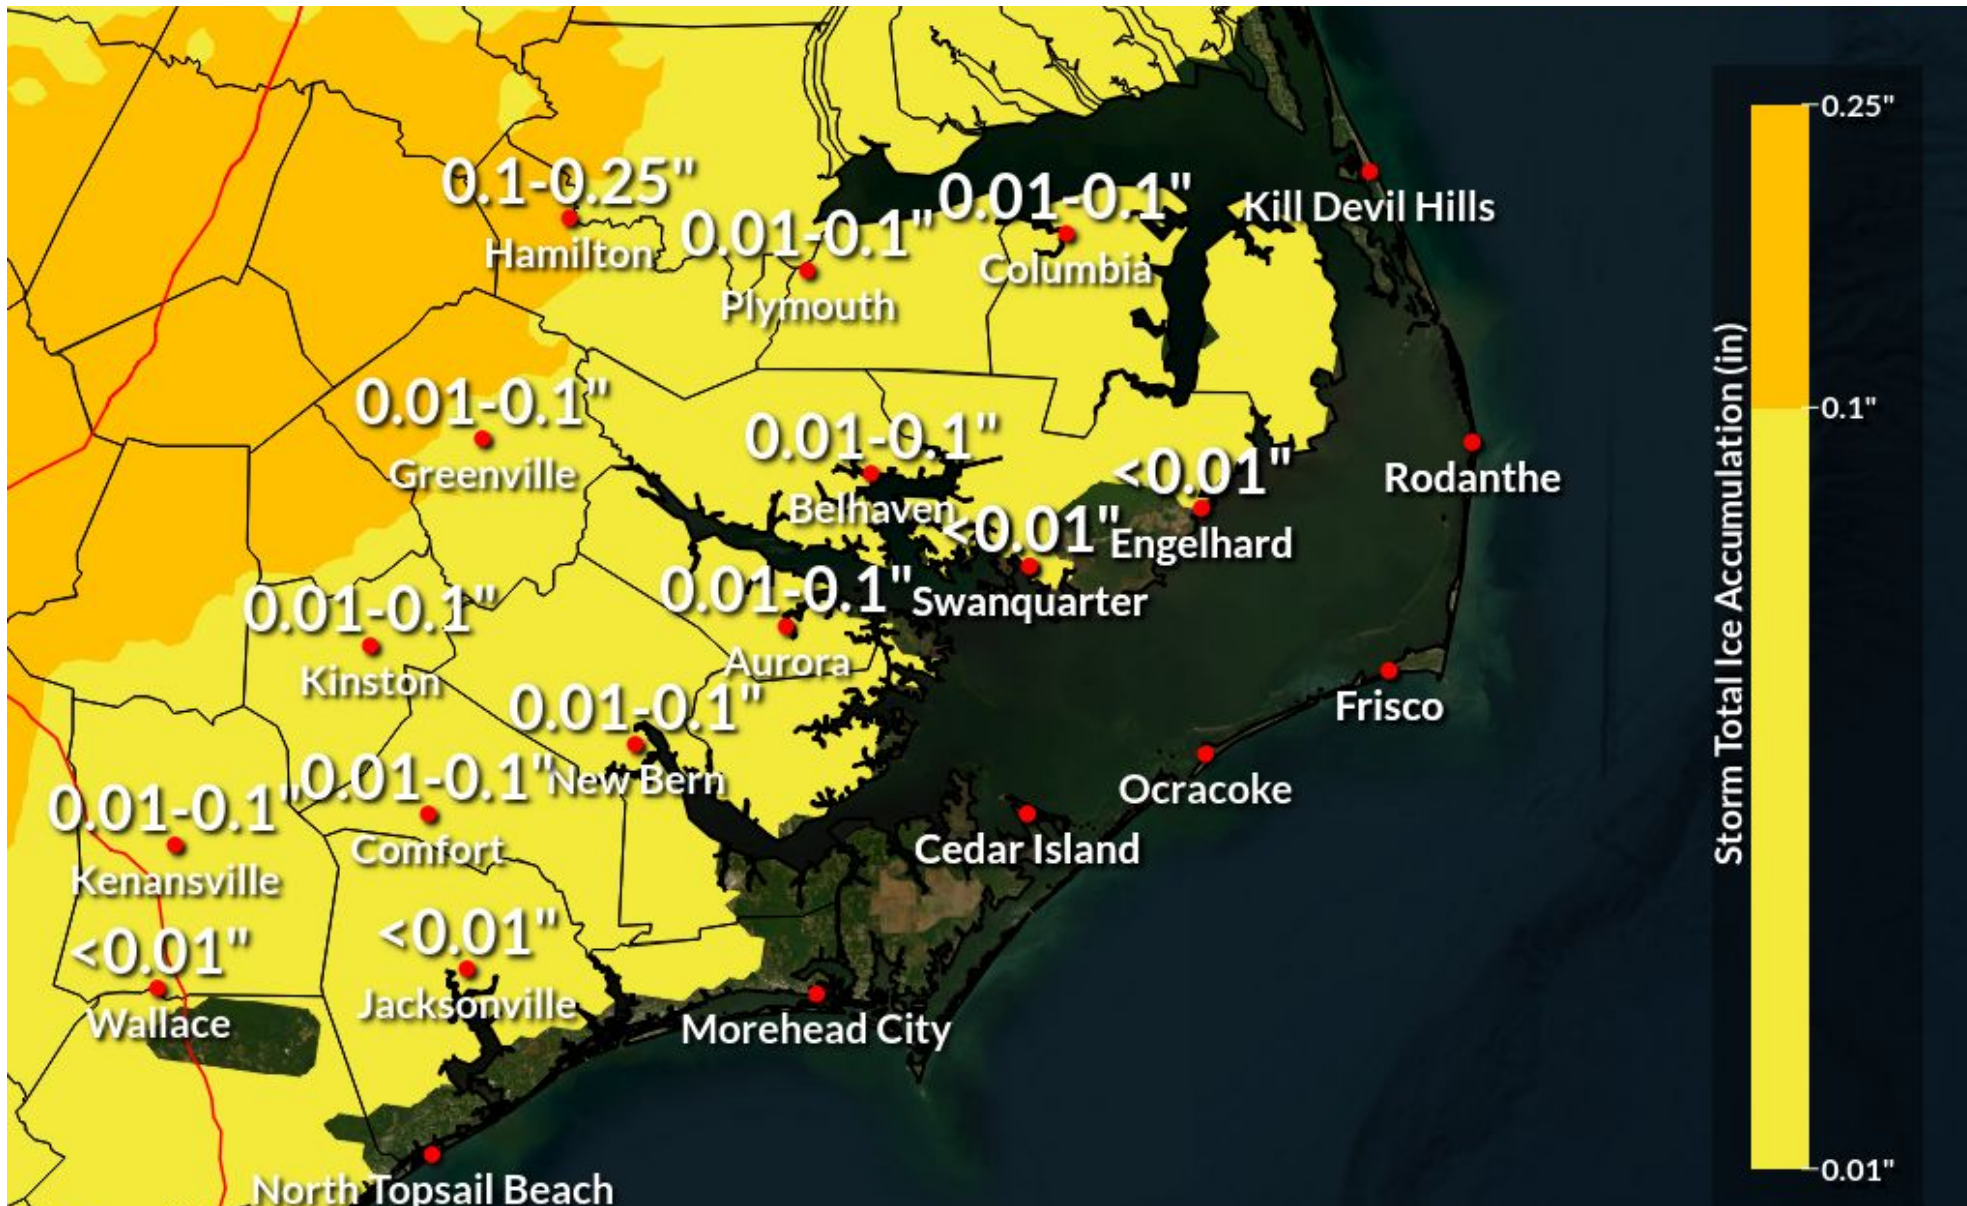

Expected Storm Total Ice

January 10, 2025
2:28 PM

Tonight through Saturday morning

- Biggest impact overnight tonight.
- Heavier icing is MOST LIKELY the farther NORTH and WEST you live.
- A small amount of ice can have a big impact, especially on bridges and overpasses.

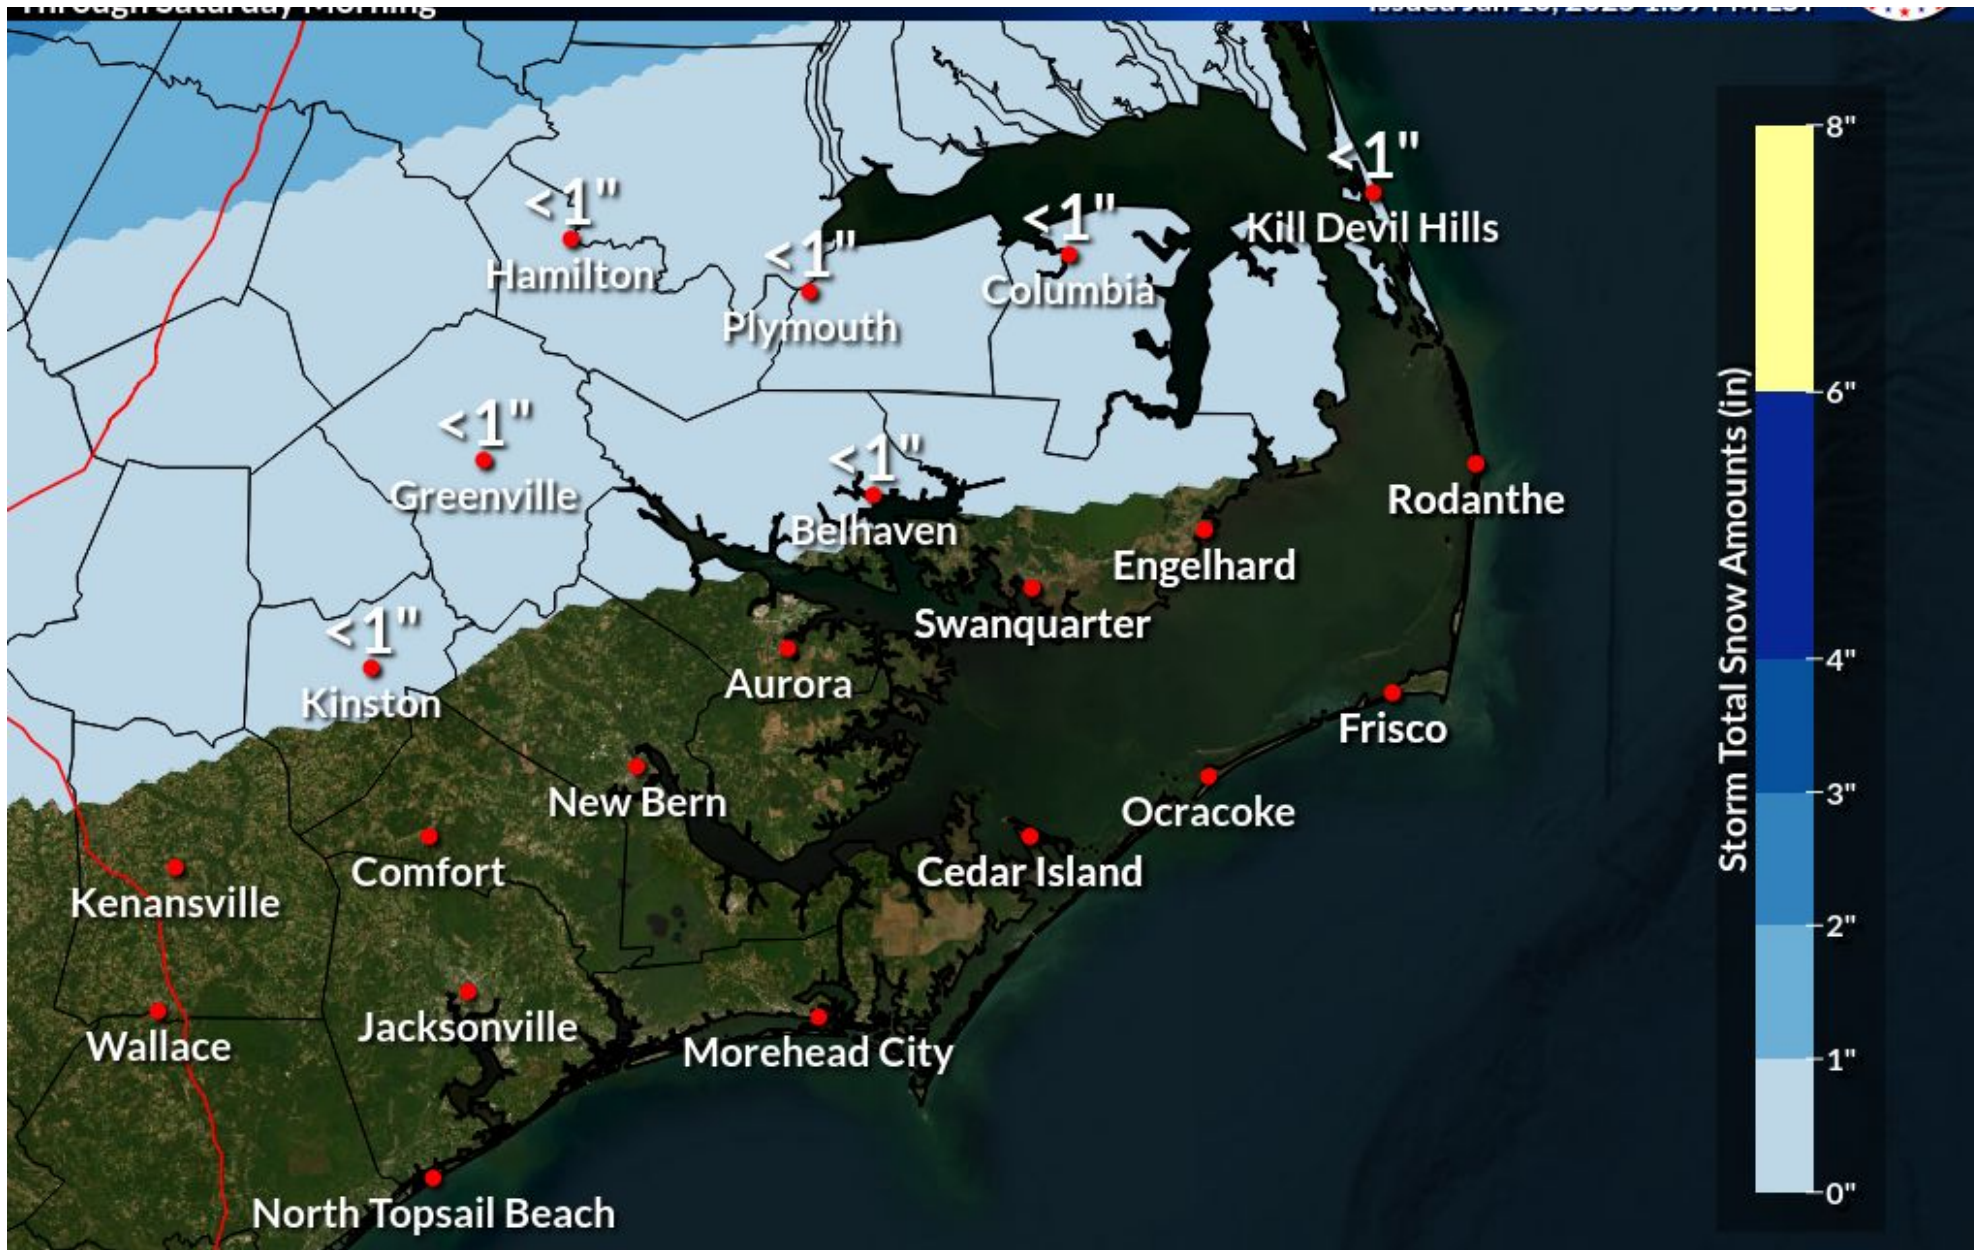

Expected Storm Total Snowfall

January 10, 2025
2:28 PM

This includes both snow and sleet

- Biggest impact overnight tonight.
- Heavier snow is MOST LIKELY the farther NORTH and WEST you live.
- Accumulating snow and ice possible on roads due to our continued stretch of very cold air.

Ice and Snow, Take it Slow

70% of snow and ice-related injuries occur in automobiles
