Subject: Soliciting Comments on the Use of NWS Frost and Freeze Products  
and Services through December 17, 2020

The NWS is exploring potential changes and improvements to the way it displays and communicates frost and freeze events. NWS is soliciting comments on public and partner use of and needs for frost and freeze information through December 17, 2020. Currently, the NWS issues five products to alert the public and partners on these hazards: Frost Advisory, Freeze Watch, Freeze Warning, Hard Freeze Watch and Hard Freeze Warning.

No changes are being proposed at this time, but NWS will use information gathered during this public comment period to inform future plans. Please use the survey link below to provide your feedback by December 17, 2020:
