              -NOAAPort  
              Other NWS Partners, Users and Employees

From:        Ian Sears, Chief  
              Mission Services Branch  
              National Data Buoy Center

Subject: Discontinuing Dial-a-Buoy Interactive Voice Response System:  
Effective March 17, 2024

Effective Sunday March 17, 2024, the National Weather Service (NWS) National Data Buoy Center (NDBC) will discontinue their Dial-A-Buoy Interactive Voice Response (IVR) system that provides buoy data in voice format via IVR toll-free numbers and primarily supports public user data inquiry based on station ID.

This service is being discontinued due to the low volume of users and the cost to retain the service. NDBC encourages any user of this service to use the redesigned NDBC website with mobile compatibility at <https://www.ndbc.noaa.gov/>.

If you have any questions, please contact:

Ian Sears  
National Data Buoy Center
