Severe, Fire, Public and Winter Weather Services Branch

Subject: Changes in Fire and Public Zones for WFO Amarillo, TX: Effective May 1, 2018

Effective Tuesday May 1, 2018 at 100 PM CDT, 1800 Coordinated Universal Time (UTC), Weather Forecast Office (WFO) Amarillo (AMA), TX, will divide the existing Randall County, TX, public and fire weather forecast zone into two zones: a new Palo Duro Canyon zone and a Randall County zone.

Specifically, the split will be along the rim of the canyon and will encompass the Palo Duro Canyon within Randall County, Texas. These changes are intended to provide increased flexibility and improved accuracy of forecast for various watches, warnings, and advisories in the public and fire weather programs. The current zone is shown below in Table 1. This zone will be split into two zones shown in Table 2.

The Fire and Public Zone changes require partners and users to take appropriate action to receive the new zone products using the Universal Geographic Code (UGC) zone code format (Z) listed in Table 2.

Table 1: Current affected WFO AMA Public and Fire Weather Forecast Zone

Current Fire/Public Current UGC (Z)

Zone Name

-----

Randall County TXZ017

Table 2: New WFO AMA affected Public and Fire Weather Forecast Zones

New Fire/Public New UGC (Z)

Zone Name

-----

Palo Duro Canyon TXZ317 Randall County TXZ017

All public and fire weather products from WFO AMA that use the Zone (Z) UGC are affected by these changes. Partners and users should take the appropriate action to ensure systems recognize the new UGC (Z) and new zone alignments and names. These changes do not affect products using

county (C) UGC.

Updated public and fire zone maps are online at:
