From: Eli Jacks
 Chief, Forecast Services Division

Subject: Addition of Grids for the 0.25 Inch (~6 mm) Threshold of
Experimental Day 4-7 Winter Weather Outlook as an Experimental Element in
the National Digital Forecast Database (NDFD) for the CONUS: Effective
October 11, 2016

Effective October 11, 2016, at 1930 Coordinated Universal Time (UTC), NWS
will add grids for the 0.25 inch (~6 mm) threshold of the Experimental Day
4-7 Winter Weather Outlook to the National Digital Forecast Database
(NDFD) as an experimental element for the Continental United States
(CONUS).

The Experimental Day 4-7 Winter Weather Outlook, produced by the NWS
National Centers for Environmental Prediction (NCEP) Weather Prediction
Center (WPC), is a forecast depicting the probability of winter
precipitation (snow/sleet) exceeding 0.25 inches (~6 mm) water equivalent
over a 24-hour period (Valid Time 12 UTC-12 UTC).

The product is comprised of 4 separate grids containing the forecast for
Days 4, 5, 6 and 7. The product is updated daily at approximately 0900
UTC and 1930 UTC.

More details on the Experimental Day 4-7 Winter Weather Outlook product,
as well as its technical description and scientific basis, are available
in the Product Description Document (PDD):

<https://products.weather.gov/PDD/ExplDay4to7WinterWeatherOutlookinNDFD.pdf>

These experimental grids will be available from NDFD in the following
standard methods:

- Gridded Binary version 2 (GRIB2) files via Hypertext Transfer Protocol (HTTP) and File Transfer Protocol (FTP)
- Extensible Markup Language (XML) via Simple Object Access Protocol (SOAP)
- Graphics via Web browser

Users who pull NDFD elements in GRIB2 format, either via the Internet may
need to update their procedures and scripts to access this new element.

The new file will be available for download at the following links effective October 11, 2016:

GRIB2 files:

<ftp://tgftp.nws.noaa.gov/SL.us008001/ST.expr/DF.gr2/DC.ndfd/AR.conus/VP.04-007/ds.p24less0025.bin>

<http://tgftp.nws.noaa.gov/SL.us008001/ST.expr/DF.gr2/DC.ndfd/AR.conus/VP.04-007/ds.p24less0025.bin>

Graphics and XML services for the experimental grids will become available within 30 days of the experimental release of the GRIB2 file into the NDFD.

NDFD online graphics: <http://digital.weather.gov/>

XML SOAP service: <http://preview.weather.gov/xml/>

Information on accessing and using NDFD elements is online at:

<http://ndfd.weather.gov/technical.htm>

Comments and feedback on these experimental elements are welcome through March 31, 2017 at:

GRIB2 users:

<http://www.weather.gov/survey/nws-survey.php?code=ndfd-grids>

Users of XML SOAP service:

<http://www.weather.gov/survey/nws-survey.php?code=xmlsoap>

NDFD online graphics:
