Start Using Information More Effectively with Xerox® Capture & Content Services

Today's challenges demand innovation at scale. Information is exploding. Companies need to enable collaboration and balance in-office and remote work while ensuring regulatory compliance. So why are so many organisations still relying on traditional processes?

To compete in today's accelerating world, you can't afford to waste time working in silos and being buried in information. You need instant access to information across your organisation and insights that pinpoint how to enhance efficiency and security.

THAT'S WHY WE CREATED XEROX® CAPTURE & CONTENT SERVICES – TO REDEFINE THE WAY YOU INTERACT WITH CONTENT.

Xerox® Capture & Content Services is a package of capabilities designed to help any organisation use information more effectively. Leveraging powerful analytics, we're able to identify problems and help you tame the massive influx of physical and digital documents that you deal with every day.

- Automatically capture, classify and catalogue key information from paper and digital documents
- Extract critical data and insights from print and digital content using machine learning and automated document classification
- Automate and streamline complex data-intensive business processes
- Enhance collaboration with an intuitive browser interface that enables any time, anywhere access to protected information
- Protect sensitive business and customer data and maintain regulatory compliance with fully automated records management

HERE ARE SOME OF THE RESULTS WE'VE HELPED OUR CLIENTS ACHIEVE:

24/7 global accessibility through unified content management

50% reduction in time spent processing documents

**86%** faster turnaround time for higher customer satisfaction

Fully digitised and automated business processes

xerox

Let's make your content work better.

In developing Xerox® Capture & Content Services, we began by looking at all the ways in which organisations use information. We analysed every touchpoint, as well as how best to improve accuracy and accessibility while reducing errors.

XEROX® CAPTURE AND CONTENT SERVICES HELPS YOU IMPROVE RESPONSIVENESS AND AGILITY.

Capture data from multiple sources	Automate extraction of data critical to business processes	Automate data integration with ERP, CRM	Encrypted data storage, retrieval and retention	Access data at any time, anywhere

The result is a suite of capabilities that is as intuitive as it is effective. Leveraging powerful AI and machine learning, you can streamline important processes to become more competitive, jump-start digital transformation and empower your employees with ready access to critical business data.

Reporting and Analytics

Device	User	Document	Process	Content

Capture	Transform	Process	Manage	Deliver
Imaging Capabilities Enable bespoke document and data capture capabilities.	**Intelligent Document Processing** Xerox Artificial Intelligence (AI) and Machine Learning (ML) help harness new levels of productivity.	**Content & Process Automation** Simplify complex business processes thanks to easy-to-use, cloud-based content management solutions as a service.		**Integrations** Software and Professional Services derive greater value and increased velocity within your document- and data-centric processes.

Workflow Management

Audit	Administration	Production	Response Management

TAKE A BIG STEP IN YOUR DIGITAL MIGRATION.

- Take control of your business with end-to-end digital transformation and automation
- Achieve federated search capabilities to break down operational silos
- Enhance regulatory compliance with records management and auditable workflows
- Ensure safety with secure document access and cloud storage
- Power next-generation productivity and competitiveness, plus benchmark customer service, with a higher-velocity business
- Deliver critical information where it needs to go quickly and integrate data with existing business processes

We can help improve the way you work.

Let us put our experience in analytics and technology expertise to work, freeing up your employees, boosting productivity and redefining the way you work at your organisation.
