MESSAGE FROM THE CAO

I am honoured to share with you some key highlights and insights that define our path forward in the 2024 Business Plan & Budget. This year is particularly special as it marks the culmination of my tenure as your Chief Administrative Officer, and I am privileged to present our collective vision for the future of Huron-Kinloss.

Our recently crafted Strategic Plan: Blueprint for our Future stands as a testament to our commitment to a shared vision for Huron-Kinloss. Shaped by the voices of our dedicated staff, esteemed Council, and the vibrant community, it reflects our dedication to preserving our rural lifestyle, protecting the environment, upholding our agricultural roots, and fostering a community that cares for one another. Moving into the implementation stage, I implore the community to remain engaged and involved as we bring this vision to life.

Our new Council-guided Integrated Master Plan will be our road map; it is a living document that is consistently updated as initiatives are completed, and as new issues or opportunities arise. This Integrated Master Plan brings together the key priorities from the organization's Strategic and Master Plans.

In the Business Plan we are incorporating Major Initiatives and Department Highlights for the year, aligning with the Blueprint for our Future Integrated Master Plan. Major Initiatives encompass substantial projects driving municipal progress, while Department Highlights center on the key operational aspects of the Township's business.

We have invested in cutting-edge software to make our progress and work visible to the public. This ensures transparency and enables our community to stay informed about the positive changes taking place within our township.

With mixed emotions, I share that this is my final budget presentation as I embark on the next chapter of my journey in retirement. It has been an incredible privilege to serve the Township of Huron-Kinloss for 34 years, and I express my deepest gratitude to each one of you for the unwavering support and collaboration over the years.

I take this moment to express my immense pride in the exceptional staff team that has tirelessly worked together, demonstrating dedication, collaboration, and excellence. It is their collective efforts that propel us toward our shared goals.

In closing, I look forward to witnessing the continued growth and success of Huron-Kinloss under new leadership. The Integrated Master Plan will serve as our roadmap, guiding us through each step of this transformative journey. I express my heartfelt appreciation for the privilege of serving as your Chief Administrative Officer, and I am confident in the bright future that lies ahead for our beloved township.

Mary Rose Walden

Chief Administrative Officer

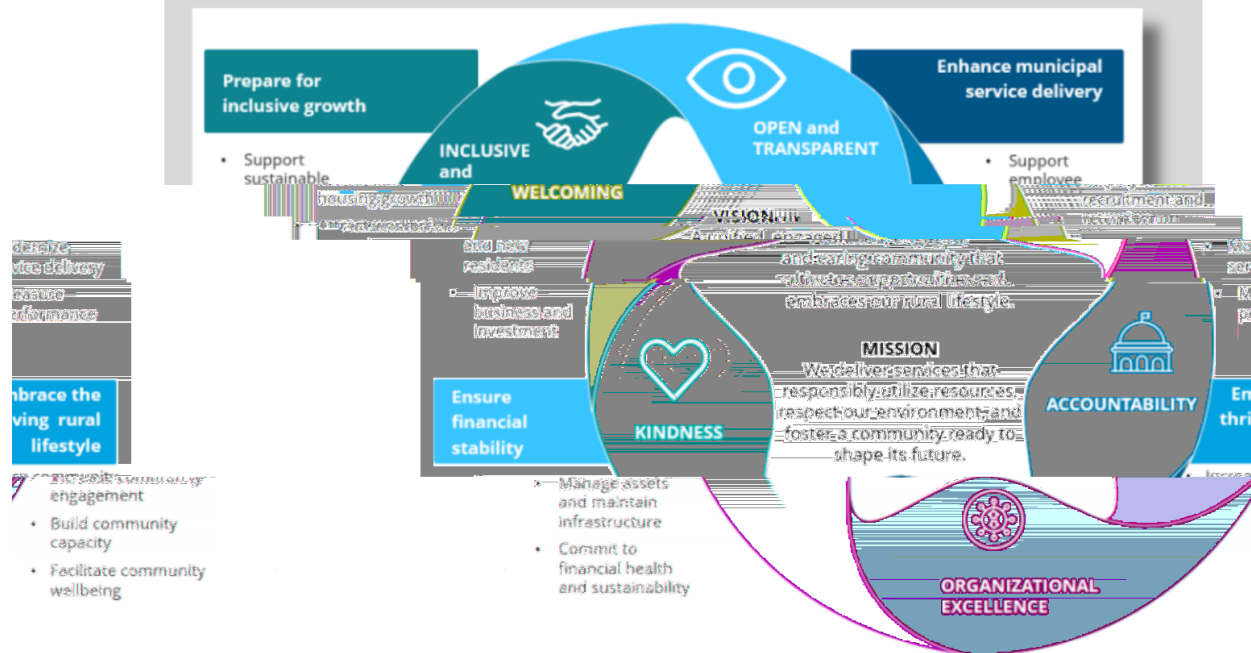

Chief Administrative Officer

Overview of the Strategic Plan

The 2023-2033 Strategic Plan: Blueprint for our Future was developed collaboratively with Council, Staff and the Community.

Our new Vision, Mission, and Strategic Priority Areas

will not be compromised while working to and Council decisions and the work that

Our Guiding Principles

Guiding principles are our values. These values we achieve our vision and are meant to guide Staff as we do.

- **Inclusive and Welcoming**
- **Open and Transparent**
- **Organizational Excellence**
- **Accountability**

- Kindness

Huron-Kinloss at a Glance

25 years ago, the Township of Huron-Kinloss was officially created by amalgamating the Village of Lucknow, Kinloss Township and Huron Township.

The average household assessment, used to calculate property taxes is \$243,115.

The current population of Huron-Kinloss, according to the 2022 census is 7,723.

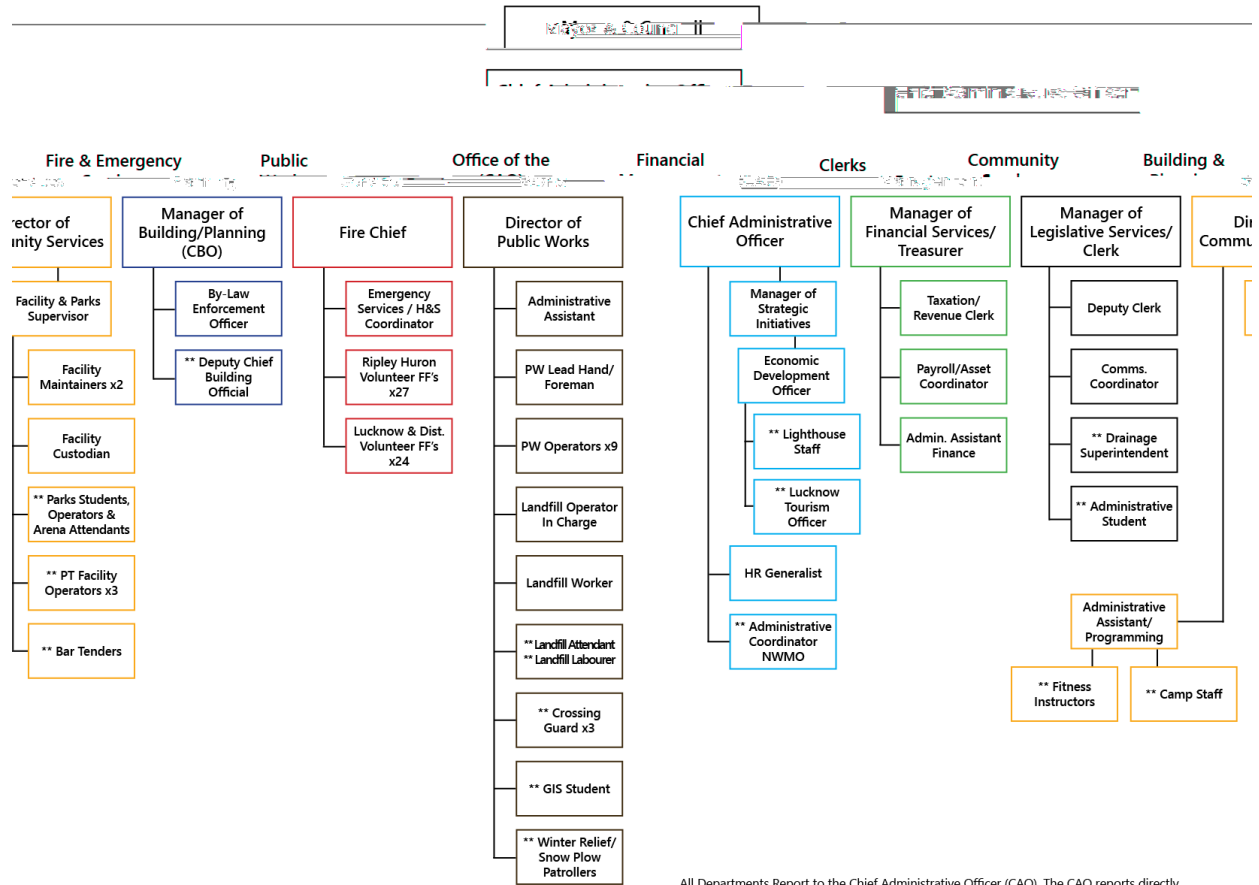

There are 19 parks, 8 trails, 2 splash pads, 1 outdoor pool and 2 arenas in Huron-Kinloss.

We have approximately 530 km of roadway in Huron-Kinloss.

Organizational Structure

All Departments Report to the Chief Administrative Officer (CAO). The CAO reports directly to the Mayor & Council. ** Indicates part-time, casual, seasonal and contract employees

Property Assessment

In 2016, MPAC updated the assessed values of every property in Ontario. These values will continue to be used to calculate the property taxes for 2024, unless there have been changes to the property that resulted in an updated assessment from MPAC.

Updated assessment resulting from a change to property includes:

- Change to the property's value resulting from a Request for Reconsideration, or an Assessment Review Board decision.
- Property value increase/decrease reflecting a change to the property; for example, a new structure, addition, or removal of an old structure.
- Change in the classification or tax liability of the property.

The Township's increase in assessment due to these changes from 2023 to 2024 was 2.04% which would result in an increase in tax dollars of \$222,179. However, the calculation includes \$60,963 in assessment gained from pipeline that will not be realized due to a previous agreement to rebate the amount of the municipal taxes for a period of ten-years. Therefore, the net gain in tax dollars from assessment growth is \$161,216.

The Province will conduct a review of the property taxation and assessment system focusing on fairness, equity and economic competitiveness. Property reassessment will be deferred until this work has been completed.

Tax Rate

The annual property taxes are broken down into three rate categories:

The Township of Huron-Kinloss is responsible for setting the municipal tax rate only.

The proposed 2024 budget requires an increase in tax dollars of \$697,281 from 2023 which results in a municipal residential tax rate increase of 4.6%. The education tax rate will remain the same as 2023 and county has passed their budget with a tax rate increase of 6.0%.

For the average residential home in Huron-Kinloss valued at 243,115 this will result in an increase of \$77.37 for the municipal portion and a combined tax increase of \$146.82 for the year; an overall increase of 4.6%.

For every 100,000 in assessed valued, the municipal property taxes will increase by \$31.82.

The table below shows the historical impacts:

Year	Tax Rate Increase	Levy Increase	Operating Expenses	Net Capital Expenses
2020	2.90%	8.05%	8,832,533	3,070,332
2021	1.92%	2.24%	9,614,046	3,103,802
2022	2.83%	4.14%	10,121,620	3,077,684
2023	4.73%	7.57%	10,628,242	3,002,759
2024	4.60%	6.90%	10,803,419	3,073,098
5 Year Average	3.40%	5.78%	9,999,972	3,065,535

Total: \$300,000.00

As a pivotal executive in local governance, the Chief Administrative Officer (CAO), in accordance with the Municipal Act, serves as the pillar, managing the seamless functioning of the municipality. Equipped with the authority to exercise general control and management, the CAO is dedicated to optimizing efficiency and effectiveness across all municipal operations. Functioning as a strategic leader, the CAO executes directives, fosters operational excellence, and embraces any additional responsibilities assigned by the municipality, embodying the essence of effective and visionary municipal administration.

What we do

- Chief Advisor to Council
- Provides Leadership to Management and Staff
- Coordinates all departments to ensure efficient implementation of Council policies and directives
- Human Resources
- Economic Development

Special Oversee

- All legal proceedings
- Subdivision development
- Financial management
- Budget process
- Ensures compliance with the Occupational Health & Safety Act

Staff Compliment
 Permanent Full-Time x 4
 Permanent Part-Time

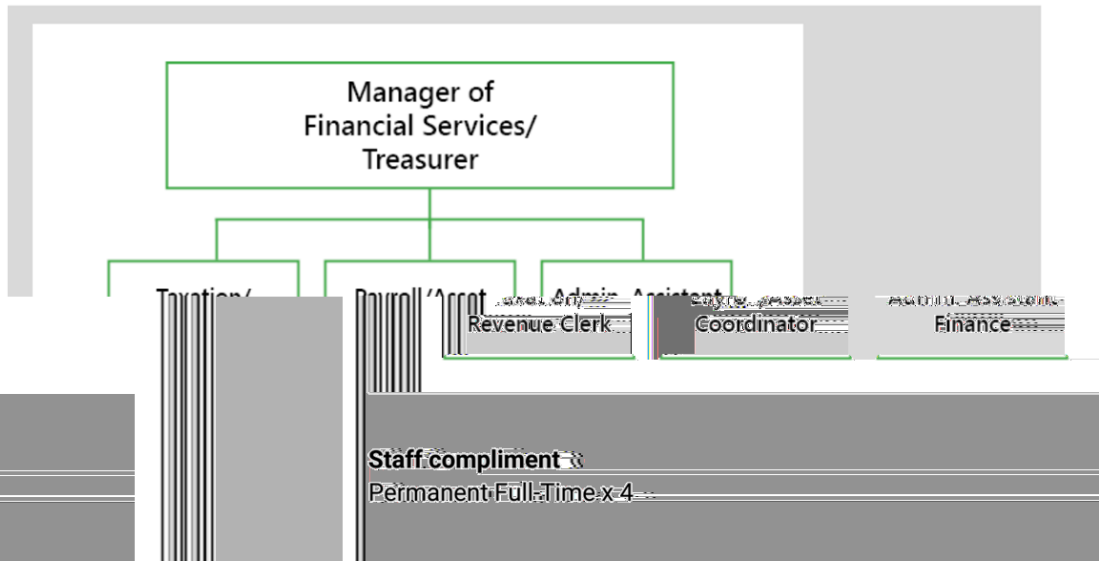

Contract Position x 1
 Seasonal x 6

The Municipal Treasurer plays a crucial role in managing the financial affairs of a municipality. They are responsible for overseeing budget preparation, financial reporting, ensuring compliance with relevant regulations and policies and risk management. They manage the collection and disbursement of funds, handle investments, risk management strategies and provide financial advice to municipal officials. Collaboration with various departments is essential to ensure efficient use of resources and contribute to the overall financial stability of the municipality. The municipal treasurer is the chief financial officer of the municipality, ensuring effective and responsible financial decision-making.

What we do

- Financial Management of the Corporation
- Revenues and expenditures
- Financial Record keeping
- Property Taxation
- Budgeting and Forecasting
- Borrowing and Investments
- Asset Management Planning and Asset Control
- Grant Reporting
- Annual financial statements
- Tax Sales

Legislative Services is responsible for the development of policies and procedures

that achieve transparency and lead to public confidence and trust in local government. The Clerk's statutory duties include recording decisions and proceedings of Council and maintaining record of Council minutes and by-laws. This department also manages accessibility, corporate records, corporate communications, licensing and provides support to meet the legislative requirements of the Planning Act and Drainage Act.

What we do

- Support Council and Standing Committees
- Corporate Communications
- Statutory Duties as set out in the Municipal Act, Planning Act, Municipal Elections Act, Municipal Freedom of Information and Protection of Privacy Act, Vital Statistics Act, Police Services Act, Accessibility for Ontarians with Disabilities Act
- Policies and Procedures
- Marriage Commissioners Program
- Commissioner of Oaths and Affidavits
- Accessibility
- Conduct Municipal Elections
- Records Management
- Licensing
- Municipal Drains

The Chief Building Official plays a vital role in overseeing various responsibilities related to building, planning, and by-law enforcement. Their building duties include issuing building permits, conducting inspections of new or updated constructions, and ensuring compliance with relevant laws and regulations. By-law Enforcement addresses issues such as parking violations, property standards, lakeshore protection, noise complaints, ATV use, and the licensing and control of dogs.

What we do

- Building
 - Issue building permits, inspect new/updated and unsafe buildings, review plans and issue orders for compliance to applicable laws.
 - Administers the Township's Official Plan and Zoning By-Law.
- Planning
 - Reviews planning and development applications such as consent/severances, zoning & official plan amendments.
 - Processes site plan applications.
- By-law Enforcement
 - Parking issues, property standards, lakeshore protection, noise complaints, ATV use, and the licensing and control of dogs.

FIRE AND EMERGENCY SERVICES

The Fire and Emergency Services are multifaceted, encompassing general administration, firefighting operations, human services through training, and community engagement. The Fire Chief diligently manages resources, personnel, and budgets while conducting ongoing training to ensure a skilled and prepared volunteer fire fighters. Community inspections, education, and permitting activities promote fire safety compliance. Simultaneously, emergency management administers response plans, conducts training, and stays current with legislative changes to optimize preparedness and coordination during crises. This integrated approach ensures a comprehensive and effective response to emergencies, fostering community safety and resilience.

What we do

- Fire Services
 - General Administration
 - Fire Department Human Services –includes training
 - Fire Department operations -includes 2 fire stations, tiered medical response & mutual aid responses
 - Community Interaction –Inspections, Education, Permitting
- Emergency Management and Health & Safety
 - Community Emergency Management Coordinator
 - Administers Municipal Emergency Response Plan
 - Emergency Management Training
 - Conduct exercises to ensure readiness
 - Annual compliance and legislative updates
 - Public education

The Director of Public Works is responsible for managing and maintaining core infrastructure essential for the community's well-being. Its primary focus lies in overseeing roads and road maintenance, ensuring the safety and efficiency of transportation. This includes the upkeep of guide rails, sidewalks, and road drainage systems, as well as the maintenance and construction of bridges. Additionally, the department is responsible for the municipal water supply through the treatment and distribution of drinking water, including wastewater treatment and collection systems. Waste management and recycling collection are also under its scope. Overall, the Public Works Department serves as a foundational pillar in maintaining and growing an operational municipal environment.

What we do

- Roads: All Open Road Allowances
- Guide Rails: Steel Beam and Post and Cable
- Sidewalks: Lucknow and Ripley and Whitechurch
- Road Drainage: Culverts, Storm Sewers, Catch Basins and Manholes
- Bridges: Rigid Frame, Girder, T-Beam, Large Culverts
- Drinking Water Treatment and Distribution Systems: Ripley, Lucknow, Lakeshore and Whitechurch
- Wastewater Treatment and Collection Systems: Ripley and Lucknow
- Waste Management: Huron and Kinloss Landfills, Garbage and Recycling Collection
- Municipal Fleet: Maintenance and Procurement
- Global Information Systems (GIS)
- Gravel Pits: Licensing, Extraction and Rehabilitation
- Permits: Entrance Ways and Tree Removal on Road Allowances

TOWNSHIP OF HURON-KINLOSS

Equipment Major Initiatives

Goal	Description	Budget
Pick up Trucks	Pickup trucks are typically cycled across various departments until they are deemed to be unreliable. The Township currently owns twelve pickup trucks. Four are primarily used by the roads department, one is used by the Landfill, five are used primarily by Community Services, one is used by the Fire Department and one is used by the Building Department. The proposed 2024 budget includes the purchase of one half tonne pickup that will replace our 2001 F-150, which is currently used at the Huron Landfill. The new truck will be used primarily by Public Works and the 2014 Dodge Ram that is currently used by	\$70,000
Street Sweeper (replace 1997)		\$435,000 (Near-Term investments Funding carry over from 2023)
Tandem Plow Truck (replace 2008)	In May 2022, the purchase of a new International HV613 SBA tandem plow truck as a replacement for our 2008 International tandem truck was approved by Council. Due to the long lead time, the purchase price was to be included in the 2024 Capital Budget. The new truck is expected to arrive in the spring of 2024. Township staff are still evaluating whether to recommend declaring the 2006 Sterling tandem plow truck or our 1987 Mack tandem that is currently used a water truck	\$365,000
Compact Wheel Loader	Public Works has been looking at replacing our 2017 Case Farmall 100C tractor since 2021. After considerable discussion in 2023, we have come to the conclusion that the 2017 tractor is suitable for the purpose of roadside grass cutting, however, it is not the preferred equipment for clearing snow in downtown Lucknow, cleaning out the yard waste depot in Lucknow, along with other maintenance tasks in the Kinloss and Lucknow areas. If were to purchase a compact wheel loader for clearing snow in Lucknow, we could put less wear and tear on the 2017 Farmall tractor, our 2018 CAT wheel loader and our 2006 Case backhoe. Our wheel loader and backhoe have to make frequent trips to Lucknow from Ripley and Holyrood respectively for various maintenance tasks throughout the year. The majority of these tasks could be completed with a compact wheel loader, so having this machine based in Lucknow would significant reduce the deterioration of our other equipment. We could also use it to load snow from the various snow storage areas on Campbell St. in Lucknow rather than relying on a contractor, which result in some cost savings. After receiving estimates for a new loader with a snow pusher in the \$240,000 range, we decided that it would be better to purchase a used machine to make sure that it suits our needs	\$100,000
Truck Painting	In 2023, we sandblasted and painted the chassis of our 2009 and 2014 tandem plow trucks, which was successful, and we believe will extend the life of these trucks. In 2024, we are recommending the sandblasting and painting of our 2012 International tandem plow truck to extend its	\$15,000
Emergency Road Closure Trailer	With the increased traffic volume on several Township roads over the past few years, Township staff have been looking into purchasing more visible traffic control devices. The only road closure devices we have currently are wooden are appropriate for low volume however, they generally aren't as effective on higher speed and higher volume	\$18,000

	roads. The proposed 2024 budget includes the purchase of two trailers that meet MTO specifications and will be beneficial in increasing	
Radar Speed Signs	Township staff have recorded evidence that the percentage of vehicles travelling over the posted speed limit of 50 km/hr on Lake Range Dr. between Con. 2 and Con. 4 is higher than normal for Township roads. Radar studies completed in late August 2023 resulted in an 85th percentile speed of 68 km/hr and a second study completed in late October 2023 resulted in an 85th percentile speed of 71 km/hr. The proposed 2024 Capital Budget includes the purchase of two pole	\$15,000
Zero Turn Mower (replace 2012)	Community Services is planning to replace a 2012 zero turn mower that is at the end of its lifecycle.	\$30,000
Grader Refurbishment (2004 Volvo)	Our 2004 Volvo G740B Motor Grader is a well built machine that has been very reliable, but it is in need of some repairs. The standard service life for graders is 20 years, so we have to make a decision whether to invest in this machine or purchase a new grader. With new graders at the size we require starting in the \$700,000 range, Township staff recommend investing in our Volvo grader. From what we have seen, graders built with this level of quality are not available anymore. Most of the proposed work are wear	\$120,000

Equipment

This budget includes the capital cost to purchase new and replacement equipment for the municipal fleet.

Water & Wastewater

Highlights

Goal	Description	Budget
Lucknow Sanitary Maintenance Hole Rep	Our Operating Authority, Veolia Canada, is in the process of inspecting sanitary maintenance holes in Lucknow for deficiencies and sources of groundwater or surface water inflow. Currently, we are planning to repair nine maintenance holes that are leaking groundwater through cracks and joints in 2024, however, this may increase as inspections continue. This project will help to reduce the volume of wastewater that is pumped into our lagoon system. There are also a few locations that appear to have storm drains connected to sanitary	\$45,000
Ripley Sanitary Maintenance Hole Repairs	Similar to Lucknow, Veolia is in the process of inspecting sanitary maintenance holes in Ripley for defects and sources of inflow. Currently, we are planning to repair six maintenance holes in 2024, however, this may	\$30,000
Ripley Lift Station	In order to ensure compliance with our ECA and reduce the environmental and safety issues with the current process of disposing imported sewage into a maintenance hole on Park St., Township staff are proposing the construction of a very basic dumping station which be significantly more efficient at a much	\$35,000
Ross St. Pumping Station Renovation (Lucknow)	With the construction of the Lucknow Elevated Tank, the building that was used to control the Lucknow Standpipe no longer has a defined use. Although the building is in good condition, it does need some maintenance and it needs to be reconfigured to be repurposed as office space rather than a pumping station. The initial recommended use of this building is to provide office space for our water and wastewater operations and convert the old Lucknow Fire Hall to a storage building that will be shared by Veolia, HK Public Works and Lucknow Recreation. It could also be used by Township staff in the future as well. The proposed 2024 budget will allocate enough funds to hire professionals to	\$100,000
Ripley Well 2 Inspection	Ripley Well 2 was inspected in 2023 and the contractor recommended brushing and air scrubbing of the well casing as soon as possible. The report noted that the well was in poor condition and cleaning will help to determine any further actions that can be taken to	\$15,000
Water & Wastewater Capacity Report	Update based on 2023 actual usage	\$8,000

Water & Wastewater

Major Initiatives

Lucknow Lift Station Pump Replacement	The Lucknow Lift Station has been designed to operate with three submersible pumps that pump sewage from the collection system to the Lucknow Lagoon facility. Only one pumps operates at a given time and two pumps are in place as backups in the primary pump suffers a failure. Currently have one pump in service and a rental pump in place due to the	\$120,000 (\$60,000 per pump, \$40,000 carry over from 2023)
---------------------------------------	--	---

	sudden failure of two pumps. The propose 2024 budget includes the	
Wheeler St. Watermain Replacement (Lucknow)	The original cast iron watermain on Wheeler St. from Inglis St. to Havelock St. in Lucknow will be replaced with a new PVC watermain, fire hydrants and	\$240,000
Ripley Well 2 MCC Replacement	The new Master Control Centre (MCC) was ordered in 2023, however, it is not expected to arrive until 2024. The amount budgeted in 2023 will be used towards the 2024 project.	\$260,000 total project cost with \$160,000 carry over from

Water & Wastewater

The Township is responsible for the operation of four drinking water systems and two sanitary sewer systems within the municipality. At the north end of the Township, a number of households also receive service from the Municipality of Kincardine. The supply and operation of these systems is funded by rates that are charged to each user of the service.

COMMUNITY SERVICES

The Director of Community Services oversees a range of responsibilities crucial to the well-being and development of the community. They manage the operation and maintenance of municipal facilities and are responsible for the upkeep of parks, focusing on creating and maintaining recreational spaces for community members. Coordinating various community events and recreation programs for the residents. With a commitment to environmental preservation, the department oversees beach and lakeshore management, tree preservation, and the maintenance of Ripley Cemetery. Energy management initiatives are implemented alongside trail improvements, ensuring a sustainable and vibrant community space that encourages outdoor engagement and contributes to the quality of life of our residents.

What we do

- Facilities Operation and Maintenance
- Maintains 19 parks, 7 pavilions and seasonal washrooms.
- Recreation Programming –including Community Events
- Beach and Lakeshore Management
- Tree Preservation
- Ripley Cemetery
- Energy Management
- Trail Improvements
- Implementation of the Parks/ Recreation Master Plan

Facilities Highlights

Goal	Description	Budget
Facility Maintenance	Replace existing Flag Pole at the Ripley-Huron Community Centre and Point Clark Community Centre	\$10,000
Improve Accessibility	Complete accessible Parking space painting at the Ripley-Huron Community Centre and Point Clark Community Centre, Install accessible hardware on Lucknow Library	\$2,500
Equipment Maintenance	Sandblast, paint, and replace all netting and pads on hockey nets at the Ripley-Huron Community Centre	\$5,000
Equipment Maintenance, regulatory compliance and safety	Replace Ice Plant relief valves X 4 at the Ripley-Huron Community Centre, TSSA regs every five years	\$5,000
Proactive equipment maintenance; reduce risk of failure	Repalce valves on chiller at the Ripley-Huron Community Centre showing signs of fatigue	\$5,000
Conservation Demand Management Plan	Develop 2024-2029 five year Conservation Demand management plan is due in July of 2024 and is updated every five years. With a one-year membership in Mayors' Megawatt Challenge, you will: 1. Networking with other municipalities, participate in cohort projects, participate in technical webinars, access to case studies. 2. Benchmark and monitor two municipal facilities annually, identify savings potential, determine where these savings can be found using facility data as the primary diagnostic tool, receive guidance on operational improvements and capital projects 3. Access MMC tools and best practices to achieve deep reductions in energy and water use and greenhouse gas emissions 4. Provide support	\$3,000

Facilities

Major Initiatives

Goal	Description	Budget
Improve energy efficiency	Install Real Ice flood water system at the Ripley-Huron Community Centre. Estimated 7 year payback: removes the micro air bubbles that are in the water – the same micro air bubbles you're getting rid of when you heat that water in your boiler to 140°F or more. Takes less energy to freeze cold water than hot. This allows the chiller system to operate at a higher brine temperature, reducing the	\$35,000
Facility enhancement and increase rental potential	Renovate kitchen at the Ripley-Huron Community Centre. Replace flooring, paint, replace cupboards, countertops, replace cooler X 2, replace dishwasher, replace ceiling	\$75,000
Protection of assets to prolong useful life	Ripley-Huron Community Centre Ice Shed painting all walls, and paint steel plates on	\$ 50,000
Expand access to health care services and increase child care spaces	The Ripley & District Medical Centre is undergoing renovations aimed at modernizing its facilities and creating additional space to accommodate doctors and the family health team, enabling them to deliver enhanced services. The Daycare is being renovated to accomadate an additional 13 spaces. 24 pre-school and 16 toddlers. • \$400,000 from the NWMO Near-Term Investment Fund, • \$223,000 from the Community Well-Being Reserve Fund	\$ 766,000
Park Redevelopment Strategy	Township of Huron-Kinloss parks are essential public infrastructure and are vital to improving and sustaining the health of our community, environment and preparing for population growth with the DCR development and ensure that	\$ 65,000

	<p>our parks continue to meet the evolving needs of our community, the Township of Huron-Kinloss proposes to hire a consultant to prepare a Park Renewal and Redevelopment Strategy. The strategy will direct the planning, management, and redevelopment of parks in Township of Huron-Kinloss. NWMO will fund \$50,000 and \$15,000 from reserve.</p> <p>The study will establish a parks classification system, concept plans and a prioritized action plan to guide capital planning for selected</p>	
Improve building efficiency and reduce reliance on propane	Convert Municipal Office, Lucknow Library and Town hall, Ripley & Lucknow Fire Stations, Ripley and Lucknow Works Garages and storage building to gas	\$ 85,000
Improve Trails and accessibility	Install new trails paths with filter cloth and stonedust and signage (Attawandaron & Deer Run). Install new signage at Lewis and Apple Rail Trail to meet accessibility	\$ 30,000
Enhance services and amenities	Earmark for fencing and surfacing to create a dog park in Ripley based on preferred location being selected	\$ 20,000
Maintain and improve walkways	Replace Fence and install bollards at Cathcart walkway	\$ 10,000
Maintain parks assets	Replace Steel Post and Brackets, Fascia, and Steel Roof on the Lewis Park Gazebo	\$ 22,000
Tree Planting Program	Replenish trees that have been removed due to the emerald ash borer	\$ 5,000

Facilities

This budget includes the costs for the Ripley and Lucknow libraries (occupied by the County of Bruce), Lucknow Town Hall, Lucknow Medical Centre (managed jointly with Township of Ashfield-Colborne-Wawanosh), Ripley Medical Centre/Family Y Childcare Centre, Ripley Cemetery, Point Clark Community Centre, Lucknow & District Sports Complex (managed jointly with Township of Ashfield-Colborne-Wawanosh) and the Ripley-Huron Community Centre.
