

Mauna Loa Solar Observatory Observer's Log

Sat Aug 20 16:52:46 GMT 1994

Year: 94 Doy: 232

Observer: koon

WEATHER COMMENT: Sat Aug 20 16:52:52 GMT 1994

Medium to thick cirrus and cumulus clouds, wind ~5 mph from the southeast,

temp ~ 45 F.

LOW-L COMMENT: Sat Aug 20 18:09:50 GMT 1994

Removed L00094 and installed L00096 in drive #1.

WEATHER COMMENT: Sat Aug 20 21:34:13 GMT 1994

Weather has been cloudy throughout my shift, probably won't clear much for Duc.

COMMENT: Sat Aug 20 22:02:38 GMT 1994

#####

Observer: koon replaced by chu

WEATHER COMMENT: Sat Aug 20 22:04:00 GMT 1994

Thick low level orographic cloud now rising from West.

May have to close dome to avoid fog.

COMMENT: Sun Aug 21 02:35:47 GMT 1994

Have been in heavy overcast since shift began. Darryl

didn't manage to get any good scans for the day either.

Will recycle the tapes.
