Darryl and DE have completed some modifications to the  
Dpmon software. Have checked to make sure that Dpmon  
is running again. Will resume cirrus vigil.

COMMENT: Wed Aug 24 23:12:10 GMT 1994  
Cirrus doesn't look like it will clear out before end of  
day. Have closed dome in order to begin paint scraping  
safely.

COMMENT: Thu Aug 25 02:44:25 GMT 1994  
Sky still overcast with cirrus. Haven't managed to get any  
good scans for the day. Will recycle Dpmon and MKIII tapes.

Tapes:  
LOW-L: L00098 running in unit 1
