LOW-L COMMENT: Tue Sep 6 17:39:52 GMT 1994  
Crashed when starting up this morning and trying to write to tape drive #1. Display shows it was trying to write a filemark. May be a bad tape or drive, I'll try to manually remove the tape and install another. I've restarted the program to write to L00103 in drive #0, I'll save tape L00102 from drive #1.

MKIII COMMENT: Tue Sep 6 17:54:36 GMT 1994
