LOW-L COMMENT: Tue Oct 11 17:05:17 GMT 1994  
The program crashed about 5:30 yesterday afternoon. I removed the current data tape (L00114 in drive #0) and moved L00115 from drive #1 to #0, installed L00116 in drive #1 and restarted program. The crash symptoms were like the old common crashes with the strange rectangles going across the screen.
