

Mauna Loa Solar Observatory Observer's Log

Thu Nov 10 16:52:59 GMT 1994
Year: 94 Doy: 314
Observer: yasukawa

WEATHER COMMENT: Thu Nov 10 16:53:38 GMT 1994
Cold, in blowing mist off of high cloudbank on east slope,
moderate southeast wind. Temp=37F.

COMMENT: Thu Nov 10 22:03:05 GMT 1994

chu relieving yasukawa of storm vigil

WEATHER COMMENT: Thu Nov 10 23:00:54 GMT 1994
Clouds beginning to separate around FOV. Wind still
blowing mist around observatory. Still waiting to
begin obs.

WEATHER COMMENT: Thu Nov 10 23:17:21 GMT 1994
Sky clearer now. Patches of clouds continue to move
about. Wind still gusting strongly but drier. Will
attempt to get a good scan in a clearing.

Thu Nov 10 23:23:49 GMT 1994: Patrol Start

DPMON COMMENT: Thu Nov 10 23:26:24 GMT 1994
Manually correcting stem using xterm window as reference.

WEATHER COMMENT: Thu Nov 10 23:45:47 GMT 1994
Had to close dome immediately. Wind from East blowing
clouds and moisture over observatory again. No good
scans yet.

Thu Nov 10 23:47:03 GMT 1994: Patrol End

WEATHER COMMENT: Fri Nov 11 02:00:09 GMT 1994
Sky mostly cloudy to West. Mist continues to be
blown from cloud bank in East. Chances for obs
today are poor. PAU.

No Observations
