Reconfiguring dome. Will leave systems running, putting in opal to protect MKIII O1.

MKIII COMMENT: Wed Mar 8 21:10:54 GMT 1995

Moved opal out, resuming obs.

DPMON COMMENT: Wed Mar 8 21:53:45 GMT 1995

First time, ADR did not unlatch after closing dome, second
doming episode was because I forgot to turn ADR back to Auto
after I manually moved the dome to unlatch ADR.
Operator headspace!
