Cool, in thick altocumulus overcast, moderate to thin cirrus overcast visible above altocumulus layer. No wind.

COMMENT: Thu Jun 22 16:32:50 GMT 1995

Read HELCO meters.

COMMENT: Thu Jun 22 17:04:40 GMT 1995

Going down to GONG to perform weekly maintenance.

COMMENT: Thu Jun 22 18:09:27 GMT 1995

GONG weekly maintenance pau. Took a bit longer. Encountered an RPC error when changing tapes, Data computer took a while to reestablish communication with Exabyte drives. Probably didn't need to but I got impatient and ran the Change-tape routine twice. New GONG tapes loaded twice as a result. Logged discrepancy in GONG message log.

Also, return delayed talking to CJG and Leon, who were up here to lay-out concrete pads for NOAA.
