

Mauna Loa Solar Observatory Observer's Log

Thu Jan 25 17:33:27 GMT 1996

Year: 96 Doy: 025

Observer: yasukawa console Jan 25 17:29

WEATHER COMMENT: Thu Jan 25 17:33:46 GMT 1996

Continued unstable weather, it is presently snowing, light southerly wind.
Observations unlikely. Will end log and send now, I can update it should
weather change, but I may abandon station to avoid icy road.

LOW-L COMMENT: Thu Jan 25 17:36:36 GMT 1996

Forgot to log that I changed tapes in unit 0 yesterday.

Removed L00369 and loaded Loo370.
