

Mauna Loa Solar Observatory Observer's Log

---

Wed Mar 27 17:18:27 GMT 1996

Year: 96 Doy: 087

Observer: koon console Mar 27 17:14

WEATHER COMMENT: Wed Mar 27 17:18:38 GMT 1996

Thick clouds and fog, wind=30+ mph from the West, temp=33 F.

COMMENT: Wed Mar 27 17:58:59 GMT 1996

It is obvious that the weather will not improve sufficiently to allow observations today so I will work on other projects. Since the puu computer is currently up after being down for several days I will take advantage of this opportunity to send this log now while it is possible, I will also send the logs 96085 and 96086.
