COMMENT: Sat Apr 13 19:40:07 GMT 1996

I had shut off breakers B1 and B3 and checked the outlet wiring in the dome in preparation for installation of the CHIP cooling system. The hot wire to the floor outlet box showed signs of arcing to a nearby screw, I taped up the insulation and rerouted the wire, we should cut off the damaged section of wire when we install the cooler later.

COMMENT: Sat Apr 13 21:32:52 GMT 1996

Spar lost guiding. Repointed and attached clamp to the bottom handle as a counterweight.

COMMENT: Sat Apr 13 22:18:52 GMT 1996

Had trouble getting the Spar to stay balanced in declination, couldn't balance it even with weights, not too critical now since it only loses tracking in the afternoon and we will soon be completely changing the balance with the CHIP.
