Paused this and CHIP in order to change the output of the MCC to the monitor  
screen, then rebooted the MCC to invoke the software that was changed on  
Kii. The screen buttons for the E-W and N-S occulting control were  
changed to arrows from Run/Step/Jog.

WEATHER COMMENT: Mon Apr 29 19:36:19 GMT 1996

MKIII COMMENT: Mon Apr 29 19:49:21 GMT 1996

Just found H01276 in a box with unused tapes. It wasn't write protected and didn't have the labels filled in but according to the log for DOY 116 it had data on it so I prepared it for mailing.
