LOW-L COMMENT: Sat Jun 28 17:17:41 GMT 1997

Tape L00461 was ejected from drive #0 as it should have been, LEDs on that
drive were blinking so I cleaned the drive and installed L00463.

MKIII COMMENT: Sat Jun 28 19:55:52 GMT 1997

Installed O1 y-axis motor and trans with new gear. The occulting looks good
and steady and the arm on the back of the motor is staying within its limits.
Will need a good full clear day with MKIII running to be sure but it looks
like the O1 guiding is very good.
