COMMENT: Sat Jul 19 17:13:41 GMT 1997

Charlie, Leon, and Steve are on site and preparing the site for the masonry work. I am occasionally helping them outside. I will monitor possible dust related problems and will shut down the dome if needed.

LOW-L COMMENT: Sat Jul 19 18:14:45 GMT 1997

I moved the Heat Exchanger Vent boxes out of the way and positioned the inlet box to point away from the future construction to try to minimize dust entry into that system.

COMMENT: Sat Jul 19 19:55:32 GMT 1997

The dust from the foundation prep is starting to swirl around and rise straight up, there is a danger of it getting inside the dome so I will close down now. I've been lucky so far because the wind has been blowing the dust away to the West.
