Observer: koon
MKIII COMMENT: Wed Oct 15 17:13:19 GMT 1997
Akamai window kept giving message that "no MKIII tape drive detected",
I saw that this happened yesterday until KCC was reset so I reset it
and it came up OK.
WEATHER COMMENT: Wed Oct 15 17:14:40 GMT 1997
Clear sky, wind=10 mph from the SSE, temp=45 F.

COMMENT: Wed Oct 15 17:47:18 GMT 1997
FAX phone line is working again, but 9350533 still only calls out and doesn't
receive calls, as if we aren't really 9350533 anymore.

MKIII COMMENT: Wed Oct 15 18:03:49 GMT 1997
Occulting was bad so I adjusted the Spar guiding to bring the O1 guiding
within range.
COMMENT: Wed Oct 15 18:41:28 GMT 1997
I talked to a different person at the phone company who had a good idea,
I called her back an she answered from a phone with Caller-ID hooked up
to it.  Our line is now actually 9358650, she will try to figure out how to give
us back our old line.  The fix done to the FAX machine line was done at their
main office, even though they said there wasn't any problem there the first
time they checked it last Saturday.

COMMENT: Wed Oct 15 22:21:33 GMT 1997
Spar is starting to lose guiding, I will close down to switch MKIII tape
drives.
COMMENT: Wed Oct 15 22:23:53 GMT 1997
I got a call from David a few minutes ago on the 935-0533 line, then I tried
it and I still couldn't make our phone ring, so maybe the problem doesn't
exist if the call is coming in from long-distance.
