
Mauna Loa Solar Observatory Observer's Log

Tue Oct 21 17:02:03 GMT 1997

Year: 97 Doy: 294

Observer: yasukawa

WEATHER COMMENT: Tue Oct 21 17:02:29 GMT 1997

Cool, in thin scattered cirrus, light southeast wind.

MKIII COMMENT: Tue Oct 21 17:03:37 GMT 1997

Installed new active terminator onto MKIII drive and swapped it back into the system, replacing the R-squared spare drive.

Tue Oct 21 17:05:08 GMT 1997 MKIII Start Patrol

MKIII COMMENT: Tue Oct 21 17:08:51 GMT 1997

First file went onto tape OK, except for a "tape write error 0" remark on akamai. KCC buttons lit up correctly and drive leds gave indications that a write was occurring.

Tue Oct 21 17:10:54 GMT 1997 PICS Start Patrol

MKIII COMMENT: Tue Oct 21 17:11:28 GMT 1997

Second file went to tape just fine.

MKIII COMMENT: Tue Oct 21 17:46:55 GMT 1997

Just got multiple "Tape write error 0" messages, filled up the akamai

window(extended full length).

MKIII COMMENT: Tue Oct 21 17:51:17 GMT 1997

I think it happened again. I recall last message dump said 616 records and the current screen reads 617 records.

Wow! it is happening again.

MKIII COMMENT: Tue Oct 21 17:55:29 GMT 1997

Just happened again. Mucho "tape write error 0" messages. I will try ejecting this tape and cleaning the drive then start a new tape. H01671 pau, H01672 to be loaded.

Tue Oct 21 18:02:11 GMT 1997 PICS Flat

Tue Oct 21 18:03:34 GMT 1997 MKIII Start Patrol

Tue Oct 21 18:03:31 GMT 1997 PICS End Flat

MKIII COMMENT: Tue Oct 21 18:03:54 GMT 1997

Reset KCC, restarting Patrol with H01672 loaded.

MKIII COMMENT: Tue Oct 21 18:08:03 GMT 1997

Still getting multiple :tape write error 0" messages.

I will abort this and reinstall the spare drive with H01672 moved over and restarted.

MKIII COMMENT: Tue Oct 21 18:19:51 GMT 1997

Spare drive installed. Tape loaded. Powered KCC back up.

Got the usual Tape drive not detected message. Reset KCC, system came up OK, tape drive initialized.

Tue Oct 21 18:21:18 GMT 1997 MKIII Start Patrol

MKIII COMMENT: Tue Oct 21 18:28:00 GMT 1997

Spare drive working OK so far.

MKIII COMMENT: Tue Oct 21 20:54:29 GMT 1997
Noticed a "tape write error 0" message for 20:40 file.
Tue Oct 21 21:02:27 GMT 1997 PICS Flat
Tue Oct 21 21:03:53 GMT 1997 PICS End Flat
COMMENT: Tue Oct 21 21:25:33 GMT 1997
Experiencing dome slot-width conflicts.
COMMENT: Tue Oct 21 21:32:41 GMT 1997
MKIII problem is caused by O1 guider, not slot conflict. ADRs working
fine, both instruments stay in slot. Absence of one of the O1 guider
steppers is probably causing the spill.
MKIII COMMENT: Tue Oct 21 21:52:14 GMT 1997
Stopping MKIII, data too ratty.
