MKIII COMMENT: Thu Apr 23 19:47:07 GMT 1998

For some reason the xanim display shows images from the early morning as well as the latest images, and the earlier images (up to 1750) are in a larger scale, and the later images look smaller. I'm not sure why but I can tell that David was working on something yesterday so maybe that has something to do with it.
