COMMENT: Sun Apr 26 20:21:03 GMT 1998

Extended the dome slot.,

LOW-L COMMENT: Sun Apr 26 20:43:31 GMT 1998

Found L00510 popped out of temp drive #0, only about 10 files on it. So far it is acting like it did when it was drive #1. Will leave this configuration for a while to see temp drive #1 works well and if this happens to temp drive #0 again. If it does I'll switch the cables and terminator and see if the problems persist when temp drive #0 is setup exactly like how regular drive #0 was. Removed L00510 from temp drive #0 and installed L00512.

LOW-L COMMENT: Sun Apr 26 20:47:14 GMT 1998

Also cleaned the temp drive #0 although no cleaning LEDs were blinking.
