PSPT COMMENT: Wed Aug 5 20:04:30 GMT 1998

I couldn't figure out a way to automate the log entry "Observing Today" to be sent to our log file on nahenahe without either creating new accounts on the PSPT computer or Nahenahe or putting our passwords into a script file. None of those are very good options so I guess we'll have to remember to make manual entries whenever we are observing with PSPT. We already make entries when there are problems or maintenance preventing observing.

Filament activity in the SE between 1900 and 2100.

COMMENT: Wed Aug 5 21:53:45 GMT 1998

The Internet guy, David Rodman, hasn't shown up like he said he would. I sent instructions to him this morning on how to get here and also left a phone message, but haven't seen him or received any reply. I wonder how easy it would be to have a problem fixed by his company if we did buy service from them.
