Discrepancy in drawings, page 2 indicates Johnson connector mounted on filter is a BMG panel connector. Schematic on page E (Drawing # HAO 200) and accompanying parts list on page D list it as SMB male connector.

KVS and DE decided that CHIP will be SHUT-DOWN until their trip out here. The plan is to replace the polarizers during that trip so they will bring out replacement connectors and they will be replaced at the same time to avoid disassembling the filter more than once.
