
Mauna Loa Solar Observatory Observer's Log

Fri Nov 20 16:59:04 GMT 1998

Year: 98 Doy: 324

Observer: yasukawa

WEATHER COMMENT: Fri Nov 20 17:02:01 GMT 1998

Cold, raining, in heavy cumulus overcast and altostratus above that.
Southeast wind.

PSPT COMMENT: Fri Nov 20 18:04:35 GMT 1998

Temperature probe installed in the wrong place, moved it to
SOP as instructed by Roy. Confirmed that setting is in centigrade
scale as requested.

WEATHER COMMENT: Fri Nov 20 21:25:02 GMT 1998

Continued overcast and occasional drizzle. No observations.

Fri Nov 20 21:28:48 GMT 1998
