PSPT COMMENT: Sun Dec 13 17:33:40 GMT 1998

I removed the thermoprinter from the instrument since Roy said we don't need further testing.

PSPT PROBLEM Sun Dec 13 17:34:35 GMT 1998

Data tape didn't get written yesterday, I used a brown colored tape.

I'll try it again today with a white tape.

PSPT PROBLEM Sun Dec 13 17:38:29 GMT 1998

Same old "Initializing Focus" problem is back again. I'll try to manually bypass the problem when I can find the time.

PSPT COMMENT: Sun Dec 13 18:48:58 GMT 1998

I moved the focus stage off the limit switch using PC commands and tried Run again. It is observing now.

PICS PROBLEM Sun Dec 13 20:15:14 GMT 1998

The images are split vertically and cut by the edges of the Display window just like yesterday. But they change back and forth, as I write this they have become normal again.

COMMENT: Sun Dec 13 21:36:55 GMT 1998

We just had some kind of power disturbance, the monitors flickered and the UPS alarm sounded. The UPS is already proving its value since everything appears to be running without any problems.
