 LOW-L COMMENT: Tue Jan 12 21:38:06 GMT 1999

Modified lowl.exe by adding new routine--dostime.c and modifying
 header.h and synchro.c to lowl directory, adding link to dostime.c
 in the link list, and rebuilt all in qc. This modification is supposed
 to add dos time to lowl header so Steve can track lost time.

LOW-L COMMENT: Tue Jan 12 21:41:53 GMT 1999
Restarted LOWL, data writing to L00571 in drive 0.

Date and time correct.
