PSPT COMMENT: Sun Jun 20 17:05:46 GMT 1999
The afternoon guider ephmcal I did yesterday hasn't negatively affected the
guider active mirror locking for the early morning data set, that's good.
I'll see if it positively affects the problematic afternoon active mirror
locking later today.

PICS  COMMENT: Sun Jun 20 20:11:28 GMT 1999
Stopped observations to remove the camera so it can be shipped back to
Kodak to have the window (over the CCD) removed to eliminate the
interference fringes that have been degrading the data.
Sun Jun 20 21:56:02 GMT 1999     MKIII     End Patrol
PSPT COMMENT: Sun Jun 20 22:07:42 GMT 1999
That guider ephmcal that I did yesterday must have done the trick, this
data set is preceeding without any guider problems.
