WEATHER COMMENT: Fri Oct 22 17:10:45 GMT 1999

In what looks like extensive thin cirrus. Cirrus coming from southwest
so unable to determine if we'll be in it all day, checking satellite
imagery. Running MKIV anyway but not getting any meaningful data
at this time.

COMMENT: Fri Oct 22 20:19:14 GMT 1999

Tapes:

MKIV: No useable data

CHIP: C00955

PICS: P01580

LOWL: L00637 in drive #0

MKIV PROBLEM: Fri Oct 22 20:23:55 GMT 1999

Received Card-designed plans and parts for the 60-Hz notch filter from Ron. Constructed filter on prototype board and coated it with Corning 3140 RTV to insulate bare wiring from contacting KCC chassis. Filter is curing on workbench. We will install and test it next time after the RTV cures.
