MKIV PROBLEM Sun Nov 14 17:48:01 GMT 1999

There are only two gif files for the animation, at 1705 and at 1708 UT.

I don't see any others in the data directory, so I'm not seeing updated animations. The file called giflist (in the data directory) doesn't list any gif files at all.

MKIV PROBLEM Sun Nov 14 17:51:10 GMT 1999

Now there is an updated gif file (1744) present in the data directory and being shown in the animation.

MKIV PROBLEM Sun Nov 14 17:53:14 GMT 1999

The giflist file is still empty, no gif files listed in it. This used to contain a list of the animated gif files, we used it to edit out bad animated files, but I guess it can't be done anymore.

PSPT PROBLEM Sun Nov 14 20:16:22 GMT 1999

I tried some dry Teflon lube on the black side of the sticky shutter leaves but that didn't cure the problem. It's like the leaves are cutting into and getting jammed on the stop. I need to open the shutter up to see if I can modify it but I didn't get any reply from anyone about whether the shutters were under warranty and therefore shouldn't be opened. It will have to wait until I get back from vacation in a couple of weeks. Until then we'll need to be sent a functioning shutter in order to get data with PSPT.
