COMMENT: Mon Mar 20 20:58:07 GMT 2000
Jim Mason's scintillation monitor shut down per Kim's instructions with
Jim's concurrence. Switch on rear of electronics box is unmarked except
for the position it should be in--not certain if it is an on/off switch
so I left it in the default position and removed power to box by unplugging
it. Program halted with <ESC>, PC and monitor turned off.
COMMENT: Mon Mar 20 21:09:22 GMT 2000
Stopping to reconfigure the dome shutter.
