\*\*PICS PROBLEM\*\*: Mon Oct 2 18:44:52 GMT 2000

Manual indicates there is a possible monitor failure.

Tried swapping with the monitor in the GONG storage shed, but that one is awaiting return for repair and is hosed. Swapped failed monitor with kaiee's monitor for the time being. We are not really using kaiee's monitor as most functions are automated.

Alerting Trouble.
