WEATHER COMMENT: Sun Oct 8 16:58:08 GMT 2000

Thick altocumulus overcast, wind=10 mph from the SE, temp=47 F.

COMMENT: Sun Oct 8 16:58:59 GMT 2000

Clouds are too thick for the Spar to track the sun. But that's OK, I have to cleanup and reinstall the gearbox I modified yesterday, for the dome shutter.

****MLSO PROBLEM****: Sun Oct 8 21:44:46 GMT 2000

It took a lot of effort but I cleaned and inspected and reinstalled and adjusted the dome shutter gearbox that I modified. The shutter works well now.

WEATHER COMMENT: Sun Oct 8 21:47:53 GMT 2000

Unable to observe due to dome shutter gearbox work, it was cloudy all morning anyway, good timing.

GONG COMMENT: Sun Oct 8 21:48:49 GMT 2000

Will stop at GONG shelter on my way down to due the weekly maintenance.
