WEATHER COMMENT: Wed Nov 22 17:19:15 GMT 2000

Thick altocumulus blocking sun, but it looks like it will clear away, wind=5 mph from the SE, temp=40 F.

COMMENT: Wed Nov 22 17:20:05 GMT 2000

Will wait for clouds to clear before starting observations.

WEATHER COMMENT: Wed Nov 22 19:11:16 GMT 2000

Cloud cover is thick and extensive. No observing today, I'll take the opportunity to get new tires for the GSA truck in Hilo.
