Thick altocumulus overcast, wind=5 mph from the SW, temp=42 F.

\*\*GONG PROBLEM\*\* : Thu Sep 6 20:58:05 GMT 2001

The power and phone lines were fixed and I started the system back up. The FO cable isn't fixed and there are a few options being discussed including a wireless connection between MLSO and the GONG shelter.

WEATHER COMMENT: Thu Sep 6 21:09:47 GMT 2001

Still have a very thick altocumulus overcast.
