MKIV COMMENT: Thu Nov 15 20:29:47 GMT 2001

Finally getting some mk4 data again. With some luck I can do a cal then swap back in the original opal and do another cal, right now it looks good but I'll wait for a couple of scans.

 OK, I swapped back the original opal into place, I put the spare back in the  
 box and the box back in the black cabinet. Currently another cal is  
 running, the first since returning this original opal to the mk4.
