Very thick cloud overcast, slight rain, wind=5 mph from the South, temp=40 F.

GONG PROBLEM
Sat Dec 15 21:28:35 GMT 2001

Getting a red field for DAS/Camera ADC051. I sent a message to gong ops.

I'll try cycling Instrument and Data Chassis on my way down now.

WEATHER COMMENT: Sat Dec 15 21:39:20 GMT 2001

Still have very thick clouds and slight rain, no observing today.
