PICS PROBLEM: Sat Dec 22 18:19:35 GMT 2001

Got a message in a window on the screen that said "Insertion Failed" and that th

the file system was probably full. I checked and found that /var is 100% full.

I keep getting those messages and it looks like the program is stalled because

of it. I'll exit the observing program and send a message to David about this,

it could be due to recent work he has been doing on the code.
