\*\*MKIV PROBLEM\*\*: Thu Aug 1 21:17:30 GMT 2002

The GIF images used in the animations haven't updated since about 1952 UT, but data scans are still being taken.

\*\*MKIV PROBLEM\*\*: Thu Aug 1 21:26:54 GMT 2002

I don't see data files for times after 1952 in the MkIV directory that has the GIF files too. I will restart the KCC to see if things change.

\*\*MKIV PROBLEM\*\*: Thu Aug 1 21:46:10 GMT 2002

Still not getting GIF images or apparently data files written, although scans are taking place and looking normal in realtime. Something like this happened on June 27 according to my search of the logs. I had to logout and log back in to end the GIF animation problem, so I will try that now.

Thu Aug 1 21:55:17 GMT 2002

Thu Aug 1 22:00:31 GMT 2002 MKIV Start Patrol

\*\*MKIV PROBLEM\*\*: Thu Aug 1 22:06:58 GMT 2002

OK, I solved the data writing problem and the GIF animation problem by closing down all the way to logging off Nahenahe and turning off the main power for KCC etcetera, then I brought it all up again like the start of a new day.

\*\*PSPT PROBLEM\*\*: Thu Aug 1 22:28:35 GMT 2002

Had to park the dome manually. Tried an "ig" command on the sparc but didn't get a response. Typed it in the window that we run the Pspt program from, maybe try a different xterm window next time.
