
Mauna Loa Solar Observatory Observer's Log

Thu Aug 22 16:37:50 GMT 2002

Year: 02 Doy: 234

Observer: koon

WEATHER COMMENT: Thu Aug 22 16:37:48 GMT 2002

Thick altocumulus overcast, no wind, temp=40 F

COMMENT: Thu Aug 22 16:45:13 GMT 2002

Will wait for clouds to thin before starting observations.

A NEW TAPE HAS BEEN PUT INTO KAIEE DLT DRIVE, Thu Aug 22 16:46:45 GMT 2002

WEATHER COMMENT: Thu Aug 22 18:17:47 GMT 2002

Clouds have cleared enough to track and start some observations.

GONG PROBLEM : Thu Aug 22 18:59:47 GMT 2002

While getting a power supply to ship back to GONG I noticed that the workstation is connected to the network again. So we should be seeing the display at MLSO on our xterminal but we haven't seen that for months - since the workstation in the trailer was first disconnected. I'm trying to figure out what the problem is, it looks like our xterminal needs info from the workstation but the "security upgrade" there is causing us problems - like most "security upgradese" seem to do.

WEATHER COMMENT: Thu Aug 22 20:00:29 GMT 2002

Clear sky.

PSPT COMMENT: Thu Aug 22 20:10:03 GMT 2002

Alice will be stopping regular pspt observations after the hourly jpgs are completed at 20:10.

PSPT COMMENT: Thu Aug 22 21:10:05 GMT 2002

There will be a few pspt images between testing and debugging. Don not expect too much from these images.

PSPT COMMENT: Thu Aug 22 21:21:35 GMT 2002

pspt ephemeris is using a doy that is one day too small. During summer, it also somehow gets a daylight savings time, and so is also 1 hour off.

Fixing this.
