WEATHER COMMENT: Sun Oct 6 16:51:32 GMT 2002

Medium scattered cirrus, wind=5 mph from the SE, temp=42 F.

MLSO PROBLEM Sun Oct 6 17:22:12 GMT 2002

Bunny fixed the mail problem that was first noticed yesterday by freeing some space on Kaiee. Still getting those "no data to transport" messages on Kaiee at frequent regular intervals though. The automated email message regarding data tapes indicates that it failed "big time" last night, I'll notify Alice. All the LEDs on the right side of the DLT3 tape drive are blinking now, this is what happened to the DLT4 drive when it failed recently too. If this drive is out then we have no spares and data may be lost. The DLT4 drive was sent to Vic for repairs back on 9/19/02.

MLSO PROBLEM Sun Oct 6 17:49:40 GMT 2002

I fixed the blinkin LED problem with the DLT3 tape drive by cycling power to it. It should now work and make our data tapes.
