Clouds are very thick, spar isn't guiding, pausing instruments.

COMMENT: Sun Jun 8 22:11:32 GMT 2003

Closed domes too, due to dark clouds.

COMMENT: Mon Jun 9 00:56:49 GMT 2003

I adjusted the azimuth drive for the main dome. It was slipping under certain "stop and go" drive conditions recently. This is in addition to the PSPT azimuth drive adjustment I made a week or 2 ago, a separate but similar problem

WEATHER COMMENT: Mon Jun 9 01:01:29 GMT 2003

WEATHER COMMENT: Mon Jun 9 01:56:08 GMT 2003
