WEATHER COMMENT: Sun Aug 3 23:01:26 GMT 2003

Clouds are thick, spar won't track, pausing instruments and closing domes.

\*\*PSPT PROBLEM\*\*: Mon Aug 4 01:09:34 GMT 2003

Since it got very cloudy I used the chance to rewire the filter heater module so that it now plugs into the wall power behind the electronics cabinet, and it now isn't turned off when we turn off the main cabinet power at the end of the day. We want the filter heater to remain on all the time now.

WEATHER COMMENT: Mon Aug 4 01:41:33 GMT 2003

Clouds are still very thick and dark.
