MLSO PROBLEM: Fri Oct 3 00:10:23 GMT 2003

Fixed pai printer, I found that bootptab on Kaiee had the old IP addresses, I changed those as root and rebooted Kaiee (maybe not needed), had to cycle power to the HP Jetdirectex HAOIP box to get it to load the correct IP address for pai. Printing works fine now.

MLSO PROBLEM: Fri Oct 3 00:35:36 GMT 2003

An email message I sent to Ron Lull this morning got sent back to me with a message from mdir.ucar.edu that it was undelivered because the domain kaiee.mlsso.ucar.edu isn't found. I'm assuming that we got unlisted from DNS during this T1 line changeover and they didn't put us back with the new IP address, then a Spam filter at UCAR refused to send the email to Ron thinking I was a Spammer using a bogus address. I left a message on Bunny's answering machine about this problem. We need to have Kaiee listed on DNS. Messages

are resent for a period of 5 days, after that they won't be sent through, we need to be on DNS within 5 days - URGENT! To be sure that we can connect to Kaiee from our laptop and PC we have to use Kaiee's IP address in our email program POP and SMTP server entries. Darryl's and Allen's are set that way now, Eric may need to change his from a domain name to IP address for POP and SMTP - else the kaiee,mlso.ucar.edu domain name won't be found and email can't be checked unless you logon to Kaiee.
