Observer: stueben

WEATHER COMMENT: Mon Dec 29 17:18:39 GMT 2003

Overcast, south wind 5-10mph, temp 33F. Big wet snowflakes falling moderately heavily. About .5" on the ground with more accumulating. Last couple of miles up the road were a little slick.

WEATHER COMMENT: Mon Dec 29 18:11:08 GMT 2003

Snow continues, about 2" accumulation. No observations likely today. Shutting down for the day and driving down the mountain while its still possible.
