\*\*PICS PROBLEM\*\* : Mon Apr 5 22:47:37 GMT 2004

Although the End command caused the Program status to go to Waiting, I noticed

that the mechanisms were still running when I went upstairs to close

the dome. A query to "ps" indicated a bunch of processes running.

Executed a Kill and programs shut down and Gui went away except for

cmdTool. Restarted Run to get all gui windows back up to stand by

for clearing in the weather.
