PSPT PROBLEM : Thu Sep 9 20:26:35 GMT 2004

Fixed the problem, started normal obs. Over the years the setscrew loosened on the drive gear, then the gear moved outward and the motor got adjusted inward, finally the slot key fell out and the gear couldn't be turned by the motor. The key was in good shape so I removed the motor and reinstalled the key and gear and readjusted the orientation of it all. -Darryl
