WEATHER COMMENT: Tue Oct 26 17:40:25 GMT 2004

Snowing light to medium, about 2 to 3 inches of soft snow on the ground, so I was able to drive up here but the outlook is bleak for today.

COMMENT: Tue Oct 26 17:41:46 GMT 2004

Mopped up water on floor and placed buckets to catch drips, all seems well.

No observing today.

WEATHER COMMENT: Tue Oct 26 18:00:07 GMT 2004

Weather look dangerous, heading down while I still can - before the road gets too slippery and people start coming up.
